The following issues were discussed in the meeting

Issues raised by Prospective Bidders	Recommended Amendment
The representatives from all companies requested an increase in the overall weight of the body armor	The amended weight specifications are now as follows: <ul style="list-style-type: none"><li>• Small: 10 Kg (Maximum)</li><li>• Medium: 10.5 Kg (Maximum)</li><li>• Large: 11 Kg (Maximum)</li><li>• XL: 11.5 Kg (Maximum)</li></ul>
The representatives from all companies asked whether both the TUV Standard Test Report and the NIJ Compliance Report are needed for this procurement as mentioned in the technical specifications.	TEC recommended that it is sufficient to provide only the NIJ Compliance Report.

Since importing the sample material takes time, the representatives from all companies requested an extension, keeping a minimum of 4 weeks between the date of the final specification amendment issuance and the bid opening date.

TEC recommended extending the bid opening date by 2 weeks.

3. Based on the above discussion, the members of TEC have decided to recommend the following amendments to the specifications in the bidding document for the aforementioned procurement.
